Response to Amendment

1. Claims 31-35 and 38-40 have been amended.

Allowable Subject Matter

1. Claims 31-35 and 38-40 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As per Claim 31.

The present invention is directed to a method for distribution content. Each independent claim identifies the uniquely distinct features " distributing ; encrypted content-mastered optical disks to a plurality of users, wherein each optical disk includes the encrypted mastered content, a writeable area, and a unique identifier and wherein a first portion of the encrypted mastered content on each optical disk is readable by an optical disk reader in response to the following steps: distributing a first permission code to the optical disk reader in exchange for a first payment; generating a first access code by using the first permission code and the unique identifier; writing the first access code onto the writeable area using the

optical disk reader and decrypting the first portion of the encrypted mastered content stored on the optical disk by using the first access code". The closest prior art, Ogata et al.(5940364A), Shinada(5436875A), Tognazzini(5959946A), and Evans et al.(2003/0126033A1), disclose encryption and mastered content, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

The claims which depend from the above allowed claims are allowed based on their dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
